

HEMANTH KUMAR BANDI

Andhra Pradesh, India | 9381158315 | imhemanthkb@gmail.com | LinkedIn | GitHub

OBJECTIVE

Aspiring Software Engineer with strong problem-solving skills and hands-on experience in Java, Spring Boot, React, MySQL, and Python. Eager to develop high-quality, scalable applications, collaborate with innovative teams, and contribute to building reliable software solutions that create real business value.

SKILLS

Programming Languages	Java, Python, C
Frameworks & Libraries	Spring Boot, Spring, React.js
Web Technologies	HTML, CSS, JavaScript, JSON
Database	MySQL, H2
Core Computer Science	Data Structures & Algorithms, Object-Oriented Programming (OOP)
Developer Tools	Git, GitHub, IntelliJ IDEA, Visual Studio Code, JSON Server
Soft Skills	Problem Solving, Communication

PROJECTS

ProjectPilot | Java, Spring Boot, React, MySQL

- Built a full-stack project management application enabling users to create, assign, and track projects and tasks through a real-time dashboard.
- Developed the frontend using React.js, React Router, and Axios for API integration, with Chart.js for dashboard visualizations and Tailwind CSS for a responsive UI.
- Designed and implemented secure REST APIs using Java 17, Spring Boot, and Spring Security with JWT-based authentication.
- Modeled and integrated a MySQL database for persistent storage, and tested API endpoints using Postman throughout development.

DDoS Attack Detection System | Python, Machine Learning, Deep Learning

- Built a machine learning-based system to detect Distributed Denial-of-Service (DDoS) attacks by classifying network traffic as normal or malicious.
- Collected and preprocessed network traffic data (cleaning, handling missing values, feature selection), then trained and compared multiple ML/DL models for traffic classification.
- Assessed model performance using standard classification metrics (such as accuracy, precision, and recall) to validate detection reliability, implementing the pipeline in Python.

INTERSHIPS

Web Development Intern | Nov 2023 – May 2024

GND Solutions India Pvt. Ltd.

- Developed responsive web pages using HTML, CSS, and JavaScript, ensuring consistent layout and usability across different screen sizes and browsers.
- Translated design requirements into functional front-end markup and styling, focusing on clean structure and readability of code.
- Used JavaScript to add interactivity to static pages, such as dynamic content updates and form behavior.
- Collaborated with the development team using Git, gaining hands-on exposure to real-world front-end workflows and best practices.

Data Science with AI Intern | Feb 2025 – Apr 2025

EMBRIZON Technologies

- Developed AI applications using Python, applying Machine Learning and Deep Learning techniques to solve data-driven problems.
- Worked on data preprocessing and analysis to prepare datasets, then built and evaluated ML/DL models, iterating on approach based on performance results.

EDUCATION

Bachelor of Technology (Computer Science and Engineering) | 2024 – 2027

Malla Reddy College of Engineering | CGPA: 8.0

Diploma in Computer Science and Engineering | 2021 – 2024

Loyola Polytechnic College (YSRR) | CGPA: 9.4

CERTIFICATIONS

- Infosys Springboard – Data Structures and Algorithms (DSA)
- Infosys Springboard – Python Programming
- Microsoft Certified: Career Essentials in Generative AI
